Index to Volume 40

Authors and titles

Adams, N. R. *See* Croker, K. P. 165

Albers, G. A. A., Gray, G. D., Le Jambre, L. F., Piper, L. R., Barger, I. A., and Barker, J. S. F.—
The effect of *Haemonchus contortus* infection on liveweight gain and wool growth in young Merino sheep 419

Anderson, J. L. *See* Wilson, K. R. 283

Anderson, W. K., and McLean, R.—
Increased responsiveness to short oat cultivars to early sowing, nitrogen fertilizer and seed rate 729

Archer, K. A., and Robinson, G. G.—
The role of stolons and seedlings in the persistence and production of white clover (*Trifolium repens* L. cv. Huia) in temperate pastures on the Northern Tablelands, New South Wales 605

Armstrong, E. L. *See* Evans, J. 791

Asher, C. J. *See* Bell, R. W. 85, 1003

Bacon, P. E. *See* Heenan, D. P. 509

Baker, G. R., Fukai, S., and Wilson, G. L.—
The response of cassava to water deficits at various stages of growth in the subtropics 517

Barger, I. A. *See* Albers, G. A. A. 419

Balnave, D. *See* Yoselewitz, I. 1111

Barker, J. S. F. *See* Albers, G. A. A. 419

Barnes, A. *See* Cameron, D. M. 699

Barry, T. N. *See* Thomson, B. C. 1065

Belford, R. K. *See* Siddique, K. H. M. 473

Bell, R. W., Edwards, D. G., and Asher, C. J.—
External calcium requirements for growth and nodulation of six tropical food legumes grown in flowing solution culture 85

Bell, R. W., McLay, L., Plaskett, D., Dell, B., and Loneragan, J. F.—
Germination and vigour of black gram (*Vigna mungo* (L.) Hepper) seed from plants grown with and without boron 273

Bell, R. W., Edwards, D. G., and Asher, C. J.—
Effects of calcium supply and selected minerals on uptake of calcium by tropical fruit legumes in solution 1003

Bellotti, W. D., and Blair, Graeme J.—
The influence of sowing method on perennial grass establishment.
I. Dry matter yield and botanical composition 301
II. Seedbed microenvironment, germination and emergence 313
III. Survival and growth of emerged seedlings 323

Bergersen, F. J., Brockwell, J. Gault, R. R., Morthorpe, Linda, Peoples, M. B., and Turner, G. L.—
Effects of available soil nitrogen and rates of inoculation on nitrogen fixation by irrigated soybeans and evaluation of ^{15}N methods for measurement 763
See also Brockwell, J. 753

Bird, P. R., Watson, M. J., and Cayley, J. W. D.—
Effect of stocking rate, season, and pasture characteristics on liveweight gain of beef steers grazing perennial pastures 1277

Birrell, H.—
The influence of pasture and animal factors on the consumption of pasture by grazing sheep 1261

Blaikie, S. J., Kelly, K. B., and Mason, W. K.—
Effects of ameliorating exposed subsoil* prior to sowing on the water relations and productivity of pasture during an irrigation cycle 97

Blair, G. J. *See* Bellotti, W. D. 301, 313, 323

Blaney, B. J., Kelly, M. A., Tyler, A. L., and Connole, M. D.—
Aflatoxin and cyclopiazonic acid production by Queensland isolates of *Aspergillus flavus* and *Aspergillus parasiticus* 395

Blum, A., Mayer, J., and Golan, G.—
Agronomic and physiological assessments of genotypic variation for drought resistance in sorghum 49

Blumenthal, M. J., O'Rourke, P. K., Hilder, T. B., and Williams, R. J.—
Classification of the Australian collection of the legume *Macrotyloma* 591

Bowles, J. E. *See* Langlands, J. P. 187, 1073

Boyne, P. *See* Newnham, J. P. 401

Brennan, R. F.—
Effect of nitrogen and phosphorus deficiency in wheat on the infection of roots by *Gaeumannomyces graminis* var. *tritici* 489

Brockwell, J., Gault, R. R., Morthorpe, L., Peoples, M. B., Turner, G. L., and Bergersen, F. J.—
Effects of soil nitrogen status and rate of inoculation on the establishment of populations of *Bradyrhizobium japonicum* and on the nodulation of soybeans 753
See also Bergersen, F. J. 763

Burdon, J. J., and Lenne, J. M.—
The *Phakopsora pachyrhizi-Kennedia rubicunda* host-pathogen association and its relation to leaf rust of *Glycine* spp. 265

Buscall D. *See* Weston, R. H. 625

Cameron, D. M., Rance, S. J., Jones, R. M., Charles-Edwards, D. A., and Barnes, A.—
Project STAG: an experimental study in agroforestry 699

Carrick, M. J. *See* Croker, K. P. 165

Cayley, J. W. D. *See* Bird, P. R. 1277

Chan, K. Y., Mead, J. A., Roberts, W. P., and Wong, P. T. W.—
The effect of soil compaction and fumigation on poor early growth of wheat under direct drilling 221

Chandler, D. *See* Oldroyd, B. P. 691

Chapman, R. E. *See* Hollis, D. E. 1047

Chapman, S. L. *See* Smith, C. J. 951

Charles-Edwards, D. A. *See* Cameron, D. M. 699

Connole, M. B. *See* Blaney, B. J. 395

Coombe, J. L., and Mulholland, J. G.—
Utilization of urea and molasses supplements by cattle grazing cereal stubbles 145

Cordery, I., and Graham, A. G.—
Forecasting wheat yields using a water budgeting model 715

Cotterill, P. J., and Sivasithamparam, K.—
An autecological study of the take-all fungus (*Gaeumannomyces graminis* var. *tritici*) in Western Australia 229

Couper, D. I. *See* Myers, B. A. 561

Coventry, D. R. *See* Evans, J. 791

Croker, K. P., Lightfoot, R. J., Johnson, T. J., Adams, N. R., and Carrick, M. J.—
The effects of selection for resistance to clover infertility on the reproductive performances of Merinos grazed on oestrogenic pastures 165

Cruz, R. T. *See* Dingkuhn, M. 1171

D'Antuono, M. F. *See* Perry, M. W. 457

Dalton, G. S. *See* Gallasch, P. T. 137

Dawson, I. A., and Wardlaw, I. F.—
The tolerance of wheat to high temperatures during reproductive growth. III. Booting to anthesis. 965
See also Wardlaw, I. F. 1, 15

Davies, H. Lloyd.—
Studies in uterotrophic activities in strains of subterranean clover 511

Davies, H. Lloyd, and the late Hill, J. L.—
The effect of diet on the metabolism in sheep 157

De Datta, S. K. *See* Dingkuhn, M. 1183

Dell, B. *See* Bell, R. W. 273

Dellow, D. W. *See* Harris, P. M. 879; Thomson, B. C. 1065

Dietzgen, R. G. *See* Alberts, E. 1027

Djajanegara, A., and Doyle, P. T.—
The intake and utilization of urea-treated rice straw by sheep differing in body condition 1037

Dingkuhn, M., Cruz, R. T., O'Toole, J. C., and Dörffling, K.—
Net photosynthesis, water use efficiency, leaf water potential, and leaf rolling as affected by water deficit in tropical upland rice 1171

Dingkuhn, M., De Datta, S. K., Dörffling, K., and Javellana, C.—
Varietal differences in leaf water potential, leaf net CO_2 assimilation, conductivity, and water use efficiency in upland rice 1183

Dodemaide, W. R. *See* Zainur, A. S. 195, 663

Donald, G. E. *See* Langlands, J. P. 187, 1075

Dörffling, K. *See* Dingkuhn, M. 1171, 1183

Doyle, P. T. *See* Djajanegara, A. 1037

Duffus, J. E. *See* Johnstone, G. R. 353

Eagling, D. R., Sward, R. J., and Halloran, G. M.—
The effect of barley yellow dwarf virus on early plant growth in ryegrass (*Lolium*) spp.) 293

Edwards, D. G. *See* Bell, R. W. 85, 1003; Gilbert, M. A. 1193, 1205, 1217; Ruaysoongnern 1241

Evans, J., O'Connor, G. E., Turner, G. L., Coventry, D. R., Fettell, N., Mahoney, J., Armstrong, E. L., and Walsgott, D. N.—
N_2 fixation and its value to soil N increase in lupin, field pea and other legumes in south-eastern Australia 791

Ewing, M. A. *See* Howieson, J. G. 843

Fenn, P. D. and Leng, R. A.—
Wool growth and sulfur amino acid entry in sheep fed roughage based diets supplemented with bentonite and sulfur aminoc acids 889

Ferris, I. G. *See* Holford, I. C. R. 1143

Fettell, N. *See* Evans, J. 791

Fewster, R. *See* Wardlaw, I. F. 1

Fischer, R. A., O'Brien, L., and Quail, K. J.—
Early generation selection in wheat. II. Grain quality 1135
See also Quail, R. A. 1117

Fleet, M. R., Smith, D. H., and Stafford, J. E.—
Comparison between Merino sheep homozygous (WW) or heterozygous (Ww) for white fleece on the incidence of isolated pigmented wool fibres and types of non-fleece pigmentation 445

Francki, R. I. B. *See* Alberts, E. 1027

Freney, J. R. *See* Smith, C. J. 951

Fukai, S. *See* Baker, G. R. 517

Galbally, I. E. *See* Smith, C. J. 951

Gallasch, P. T., and Dalton, G. S.—
Selecting salt-tolerant rootstocks 137

Gault, R. R. *See* Brockwell, J. 753; Bergersen, F. J. 763

Gilbert, M. A., Edwards, D. G., Jones, R. K., and Shaw, K. A.—
Effect of phosphorus supply on three perennial *Stylosanthes* species in tropical Australia. I. Vegetative and reproductive growth 1193

Gilbert, M. A., Edwards, D. G., Shaw, K. A., and Jones, R. K.—
Effect of phosphorus supply on three perennial *Stylosanthes* species in tropical Australia. II. Phosphorus and nitrogen within the plant and implications for grazing animals 1205

Gilbert, M. A., Jones, R. K., Shaw, K. A., and Edwards, D. G.—
Effect of phosphorus supply on three perennial *Stylosanthes* species in tropical Australia. III. Potassium, calcium, magnesium and sodium concentrations and implications for grazing animals 1217

Gilmour, A. R. *See* Raadsma, H. W. 207

Golan, G. *See* Blum, A. 49

Goodman, R. D. *See* Oldroyd, B. P. 691

Gordon, L.—
Quantitative determination of oxytetracycline in honey by cylinder plate microassay 931

Graham, A. G. *See* Cordery, I. 711

Gray, G. D. *See* Albers, G. A. A. 419

Guy, P. L. *See* Johnstone, G. R. 353

Hacker, J. B. *See* Wilson, J. R. 283

Haigh, B. M. *See* Holford, I. C. R. 1143

Halloran, G. M. *See* Eagling, D. R. 295

Harris, P. M., Dellow, D. W., and Sinclair, B. R.—
Preliminary '*in vivo*' measurements of protein and energy metabolism in the skin of sheep 879

Harvey, G. J.—
Biological activity of 2,4-esters on rubber vine (*Cryptostegia grandiflora*): dependence on vapour pressure and molecular weight and isomerism of the alcohol substituent 685

Hattersley, P. W. *See* Wilson, J. R. 125

Heenan, D. P., and Bacon, P. E.—
Effects of timing and placement of urea on aerial-sown semi-dwarf rice in south-east Australia 509

Henderson, C. W. L.—
Using a penetrometer to predict the effects of soil compaction on the growth and yield of wheat on uniform, sandy soils 497

Herdina, and Silsbury, J. H.—
Nodulation and early growth of faba bean (*Vicia faba* L.) and pea (*Pisum sativum* L.) as affected by strain of *Rhizobium*, NO_3 supply, and growth temperature 991

Hetzel, D. J. S. *See* Mackinnon, M. J. 1085

Hilder, T. B. *See* Blumenthal, M. J. 591

Hill, the late J. L. *See* Davies, H. Lloyd 157

Hill, M. J.—
The effect of differences in intensity and frequency of defoliation on the growth of *Phalaris aquatica* L. and *Dactylis glomerata* L. 333

Hill, M. J., and Watson, R. W.—
The effect of differences in intensity and frequency of defoliation on the growth of Sirolan phalaris in the field 345

Holford, I. C. R.—
Yields and nitrogen uptake of grain sorghum in various rotations, including lucerne, annual legume and long fallow 255

Holford, I. C. R., Haigh, B. M., and Ferris, I. G.—
Atrazine persistence and phytotoxicity on wheat as affected by nitrogen and rotation-induced changes in soil properties 1143

Hollis, D. E., and Chapman, R. E.—
Mode of action of mouse epidermal growth factor on the wool follicles of Merino sheep: an ultrastructural study 1047

Hornitzky, M. A. *See* Oldroyd, B. P. 691

Howie, H., and Lloyd, J.—
Response of orchard 'Washington Navel' orange, *Citrus sinensis* (L) Osbeck, to saline irrigation water. II. Flowering fruit set and fruit growth 371
See also Lloyd, J. 359

Howieson, J. G., and Ewing, M. A.—
Annual species of *Medicago* greatly differ in their ability to nodulate on acid soils 843

Hudson, A. H. F. *See* Tucker, D. J. 675

Hynd, P. I.—
Effects of wool follicle cell kinetics in sheep differing in efficiency of wool production 409
The effects of fishmeal and postruminal glucose on the intake and digestion of low quality herbages by grazing cattle in southern Australia 923

Javellana, C. *See* Dingkuhn, M. 1183

Johnson, K. G. *See* Sherwin, C. M. 177

Johnson, T. T. *See* Croker, K. P. 165

Johnston, G. N. *See* Wythes, J. R. 1099

Johnstone, G. R., Duffus, J. E., and Guy, P. L.—
New records on the occurrence of beet western yellows virus in Australia, New Zealand and Mexico 353

Jones, R. K. *See* Gilbert, M. A. 1193, 1205, 1217

Jones, R. M. *See* Cameron, D. M. 699

Kapulnik, Y., Teuber, L. R., and Phillips, D. A.—
Lucerne (*Medicago sativa* L.) selected for vigor in a nonsaline environment maintained growth under salt stress 1253

Keanea, P. J. *See* Porter, I. J. 867

Kellaway, R. C. *See* Zainur, A. S. 195, 663

Kelly, K. B. *See* Blaikie, S. J. 97

Kelly, M. A. *See* Blaney, B. J. 395

Kelly, R. W., and Newnham, J. P.—
Estimation of gestational age in Merino ewes by ultrasound measurement of fetal head size 1293
See also Newnham, J. P. 401

King, W. R. *See* Teleni, E. 913

Khan, T. N.—
Effect of spot-type net blotch (*Drechslera teres* (Sacc.) Shoem) infection on barley yield in short season environment on northern cereal belt of Western Australia 745

Kirby, A. C. *See* Zainur, A. S. 663

Knights, E. *See* Luckett, D. J. 1155

Lake, A. W. H.—
Spotted alfalfa aphid survival and reproduction on annual medics with various levels of aphid resistance 117

Langlands, J. P., Donald, G. E., Bowles, J. E., and Smith, A. J.—
Trace element nutrition of grazing ruminants. III. Copper oxide powder as a copper supplement 187

Langlands, J. P., Donald, G. E., Bowles, J. E., and Smith, A. J.—
Selenium concentration in the blood of ruminants grazing in northern New South Wales. III. Relationship between blood concentration and the response in liveweight of grazing cattle given a selenium supplement 1075

Laudani, A. *See* Tucker, D. J. 675

Le Jambre, L. F. *See* Albers, G. A. A. 419

Leng, R. A. *See* Fenn, P. D. 889

Lenné, J. M. *See* Burdon, J. J. 265

Lightfoot, R. J. *See* Croker, K. P. 165

Lloyd, J., and Howie, H.—
Response of orchard 'Washington Navel' orange, *Citrus sinensis* (L.) Osbeck, to saline irrigation water. I. Canopy characteristics and seasonal patterns in leaf osmotic potential, carbohydrates, and ion concentrations 359
See also Howie, H. 371

Lindsay, J. R. *See* Weston, R. H. 625

Loneragan, J. F. *See* Bell, R. W. 273

Luckett, D. J., Rose, D., and Knights, E.—
Paucity of semiclonal variation from immature embryo culture of barley 1155

Lush, W. M. *See* Rogers, M. E. 549

McCown, R. L., and Wall, B. H.—
The influence of weather on the quality of tropical legume pasture during the dry season in northern Australia. III. Effects of digestibility and chemical composition 573
See also Wall, B. H. 579

McDowell, R. C. *See* Zainur, A. S. 663

McFarlane, J. D.—
The effect of copper supply on vegetative and seed yield of pasture legumes and the field calibration of a tissue test for detecting copper deficiency I. Subterranean clover (*Trifolium* spp. *subterraneum, yannicum*) 817
II. Strawberry clover (*Trifolium fragerferum* L.) 833

McLay, L. *See* Bell, R. W. 273

McLean, R. *See* Anderson, W. K. 729

McLean, R. W. *See* Mott, J. J. 1227

Mackinnon, M. J., Hetzel, D. J. S., and Taylor, J. F.—
Genetic and environmental effects on the fertility of beef cattle in a tropical environment 1085

Mahoney, J. *See* Evans, J. 791

Mailer, R. J.—
Effects of applied sulfur on glucinosate and oil concentrations in the seeds of rape (*Brassica napus* L.) and turnip rape (*Brassica rapa* L. var. *silvestris* (Lam.) (Briggs) 617

Marschke, G. W. *See* Roper, M. M. 241

Marshall, R. C. *See* Tucker, D. J. 675

Mason, W. K. *See* Blaikie, S. J. 97; Mundy, G. N. 107

Mayer, J. *See* Blum, A. 49

Mead, J. A. *See* Chan, K. Y. 221

Merriman, P. R. *See* Porter, I. J. 861

Moore, R. M., Williams, J. D., and Nicholls, A. O.—
Competition between *Trifolium subterraneum* L. and established seedlings of *Hypericum perforatum* L. var. *angustifolium* L. 1015

Morthorpe, L. J. *See* Brockwell, J. 753; Bergersen, F. J. 763

Mortimer, S. I. and Atkins, K. D.—
Genetic evaluation of production traits between and within flocks of Merino sheep. I. Hogget fleece weights, body weight and wool quality 433

Mosetter, H. F. *See* Ryley, M. J. 1161

Mott, J. J., Winter, W. H., and McLean, R. W.—
Management options for increasing the productivity of tropical savanna pastures. IV. Population biology of introduced *Stylosanthes* spp. 1227

Mulholland, J. G. *See* Coombe, J. B. 145

Mundy, G. N., and Mason, W. K.—
The effect of flood irrigation and nitrogen source on the fate of nitrogen fertilizer applied to pasture 107

Munibi, P. *See* Wardlaw, I. F. 1, 15

Myers, B. A., and Couper, D. I.—
Effects of temperature and salinity on the germination of *Puccinellia ciliata* (Bor) cv. Menemen 561

Newnham, J. P., Kelly, R. W., Boyne, P., and Reid, S. E.—
Ultrasound guided blood sampling from fetal sheep 401
See also Kelly, R. W. 1293

Nicholls, A. O. *See* Moore, R. M. 1015

O'Brien, L. Panozzo, J. F., and Ronalds, J. A.—
F_3 response to F_2 selection for quality and its effect on F_3 yield distribution 33
See also Fischer, R. A. 1135

O'Connor, G. A. *See* Evans, J. 791

Oldroyd, B. P., Goodman, R. D., Hornitzky, M. A. Z., and Chandler, D.—
The effect on American foulbrood of standard oxytetracycline hydrochloride treatments for the control of European foulbrood of honeybees (*Apis mellifera*) 691

O'Rourke, P. K. *See* Blumenthal, M. J. 591

O'Toole, J. C. *See* Dingkuhn, M. 1171

Panozzo, J. F. *See* O'Brien, L. 33

Passioura, J. B. *See* Richards, R. A. 943

Paxton, W. J. *See* Raadsma, H. W. 207

Pederson, D. G.—
Relationships between wheat varieties on the basis of grain yields for South Australian farms 25

Peoples, M. B. *See* Brockwell, J. 753; Bergersen, F. J. 763

Perry, M. W., and D'Antuono, M. F.—
Yield improvement and associated characteristics of some Australian spring wheat cultivars introduced between 1860 and 1982 457

Peter, D. W. *See* Weston, R. H. 625

Phillips, D. A. *See* Kapulnik, Y. 1253
